Competitive Shipping Rates

FedEx Ground UPS

If you need a specific shipping carrier, Please call us to arrange shipping. When shipping LTL Motor Freight, we broker with various shipping carriers to find you the best possible rates.

TABLE OF CONTENTS

Most equipment and pumps have a two year warranty. Warranty is provided directly from the manufacturer to you as the customer. Please contact the manufacturer to claim a warranty.

Product specifications and availability are subject to change without notice and substitute items may occasionally be shipped.

We recommend you to mail, call, fax, or email your orders in a minimum of two weeks before you pick up them up, or need to be shipped. We reserve the right to pro-rate items in short supply. Prices are not guaranteed.

Early orders placed and not picked up by Feb. 15 will be subject to available supplies and updated prices.

Returns policy: Salable products in their original packaging may be returned with permission. (10% restocking charges apply). **Note: Seeds, onion sets, fertilizer, special order items, and discounted items not returnable under any condition.**

Credit refunds: In case of over payments, shortages, etc. credit invoices will be issued and expire after one year.

All claims for damaged and missing items on a order MUST be made within 5 days from receiving the shipment. A signed proof of deliver noting the damage or missing items must be included. We will not be honoring any claim issues after the 5 days. This would also apply to any orders picked up at our warehouse, customer is required to verify all items on the order within 5 days.

Grow With The Best
GUTTER CONNECT

Recognized for it's simplicity of design, this gutter connect poly greenhouse has become an industry favourite unsurpassed for versatility, reliability and cost effectiveness.

Built to exact standards, this engineered greenhouse provides years of quality service, and it's versatility can be used for growing or becoming a retail environment. Designed for quick, easy construction, The 'Herculon' Gutter Connect greenhouse provides an excellent long term investment.

Sizes

- 18 ft, 21 ft, 24 ft and 27 ft widths
- Twin 18 ft, 21 ft and 24 ft widths

Standard Post & Arch Spacing:

- 12 ft post spacing at various heights
- 4 ft and 6 ft arch spacing

Features

- Designed for quick, easy construction
- Hot dipped galvanized 3" square posts - galvanization after manufacturing is completed
- Hot dipped galvanized trusses
- Gable ends have inverted trusses and 3" centre posts for strength, rigidity and for crop support
- Maximum light transmission due to 1" x 2" or 1" x 3" arches
- Pre-designed for heating and shading systems

Greenhouse Systems

NOR'EASTER & NORTHPOINT RIMOL GREENHOUSES

Perfect for high tunnels and growing

Features

- Nor'Easter available in 30 ft. and 34 ft. widths
- Northpoint available in 22 ft. and 26 ft. widths
- 4 ft. bow spacing standard
- Nor'Easter bows are 1.90 in., 13 ga. galvanized steel tubing
- Northpoint bows are 1.66 in., 14 ga. galvanized steel tubing
- There is a truss assembly with every bow resulting in unmatched strength
- 5 purlins per 30 ft. greenhouse and 7 purlins per 34 ft. greenhouse
- 3 purlins for the 22 ft. and 26 ft. greenhouse
- Purlins connect to the bows using a cross connector system which prevents unnecessary drilling into the bow
- Truss support system allows for additional purlin pipe to be hung for hanging baskets or crop supports
- Wind bracing kits included with all greenhouses
- The height of the greenhouse can be raised with the extended ground posts option for high tunnels
- Additional purlin pipe is available for hanging basket runs or crop supports
- Engineering meets International Building Code (IBC)

Eastpoint Series • 18′–20′ Greenhouse

The Eastpoint Series is the best of both worlds, combining strength and versatility at an affordable Price, making it a great starter greenhouse. The Eastpoint is perfect for growers that want the durability of a larger free-standing house but are looking for something simple and easy to construct. Roll-up sides are an optional upgrade.

ITEM #	DESCRIPTION	
18' Wide Eastpoint Series	32' Plastic Width	Call for price
20' Wide Eastpoint Series	32' Plastic Width	Call for price

Northpoint • 22′–26′ Greenhouse

The Northpoint Series is the ultimate in freestanding greenhouses. The Northpoint was developed as one of the original Rimol Greenhouses, designed for multi-functional use as both a growing and retail house. The Northpoint has exceptional versatility, and can also withstand harsh snow and wind loads seen in all areas of the country. Roll-up sides are an optional upgrade.

ITEM #	DESCRIPTION	
22' Wide Northpoint Series	32' Plastic Width	Call for price
26' Wide Northpoint Series	40' Plastic Width	Call for price

Nor'Easter Series • 30'–34' Greenhouse

The Nor'Easter greenhouse series is the strongest free-standing greenhouse available. The Northeast United States is known for experiencing harsh and unpredictable weather conditions, and as the name suggests, the Nor'Easter greenhouse series will protect your crops through some of the most dangerous weather. The Nor'Easter can be counted on to be dependable when you need it most, and is constructed with a unique truss support system to double the strength of every bow. Rimol Greenhouses are built to last, and the rock-solid construction of the Nor'Easter greenhouse series will prove that.

Beiler Greenhouse Kits

We are handling Beiler's Greenhouses. **Please call for current prices.**

- Locally manufactured, short lead time, affordable
- Many other options and sizes available
- Standard height - 7'6" to bottom of truss
- Additional height options available
- Standard truss is a "W" pattern
- Doors made from SQ tubing and Polycarbonate
- Automated vents and side curtains available
- Up to 34' wide
- 3-Tier greenhouses available
- NRCS approved high tunnels

ITEM #	PLASTIC WIDTH	DESCRIPTION
20' Wide	36'	4' Bow Spacing, 3 Runs of Purlins, 2" 13 ga. Bows
24' Wide	42'	4' Bows Spacing, 3 Runs of Purlins, 2 3/8" 14 ga. Bows
26' Wide	48'	4' Bows Spacing, 3 Run of Purlins, 2 3/8" 14 ga. Bows
30' Wide	48'	4' Bows Spacing, 3 Runs of Purlins, 2 3/8" 14 ga. Bows
32' Wide	50'	4' Bows Spacing, 3 Runs of Purlins, 2 3/8" 14 ga. Bows
34' Wide	56'	4' Bows Spacing, 3 Runs of Purlins, 2 3/8" 14 ga. Bows

Low Tunnels

Need a high tunnel but do not have the space or money to put one up? Consider a low tunnel that is 40" wide and 48" high. It has all the same benefits of growing in a high tunnel, but on a smaller scale. You pick your length and we can put a kit together for you. Comes with ground stakes, 1/2" galvanized hoops, 4-year 6 mil. plastic or a 1 year 2+mil. plastic and rubber cords w/hooks. With this unique low tunnel, if it is a warm day, you can go along and lift up the sides just like a high tunnel. Can also use row cover for frost protection or bird netting for pest protection. Consider adding an irrigation system to your low tunnel with overhead irrigation or use drip tape.

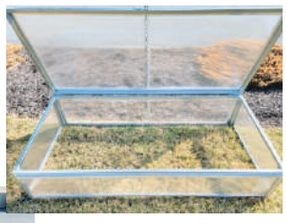

Hobby Greenhouse

Our Hobby Greenhouses are solidly built with a shutter fan, thermostat and outlets all wired in. We can customize these as well to your specifications, let us know what you would like!

·Solid polycarbonate walls and ceiling
·Solid wood flooring
·Installed storm door
·20" Venting fan
·Thermostat installed
·Wire benching
·Ships just like a storage shed
·EZ set, make a level spot and we can set it there
·Freight not included, call for shipping quote

Greenhouse Curtain Motor

Single output, low voltage, DC motor

The LVM60 Greenhouse Curtain Motor comes complete with the guide wheel set and has been specially designed to meet the demands of greenhouses. These compact and lightweight motors are able to take your ventilation to a more efficient operation.

You can automate your curtain ventilation by using one of our environmental controllers or use interface boxes to connect to your existing ventilation system.

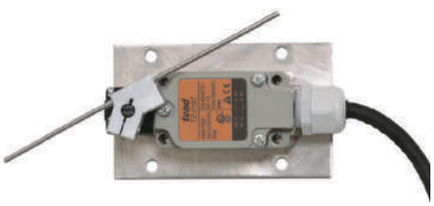

Features:

- 4 Year Limited Warranty
- Innovative low-bind guide wheels for longer motor life
- U.S. based tech support and repair options at 1-877-546-2257
- Innovative roll bar adapter system for multiple roll bar adapters
- Easy access limit switches (directional limits)
- Interchangeable guide wheel assembly to change left or right output
- Compact, quiet, and light weight
- Curtain motor uses a 1 3/8" guide pipe

Motor Specifications: 24 VDC, 60 NM, 3A, 72 W, 2.7 RPM, 40 Rev, 0.78" (20mm) OD output shaft

****The LVM6v0 Greenhouse Curtain Motor is designed to lift up to a 1250 sq. ft. single bar curtain or up to a 625 sq. ft. double bar curtain****

ITEM #	DESCRIPTION	PRICE
GFA5LVM60	24 V DC Roll Up Motor Operator	$320.00
GGP6C1.315	7' x 1-3/8" Guide Pipe w/Chain Assembly	$14.00

Limit Switch

Required for all Roll Lock Curtain and Rack and Pinion installations. Required to override motor's down Limit Switch when using Roll Lock. Compensates for poly shrinkage and/or expansion.

ITEM #	DESCRIPTION	PRICE
GFA5LVML	Limit Switch Assembly for Auto Roll Up	$118.69

Automatic Vent Opener

Automatic Vent Opener

A farmers favorite, this opener is low maintenance because it is 100% heat powered. The auto opener operates automatically. Durable aluminum and stainless steel construction.

Adjustable opening temperature of 60° F to 75° F

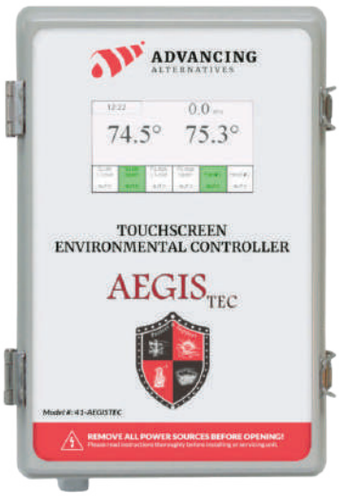

Maximum opening of 18"

Recommended for vents up to 15 lbs.

Quick disconnect feature for cold frames

Equipped with dual springs for windy locations

ITEM	DESCRIPTION	PRICE
AUTVE	Automatic Vent Opener	$49.95

AegisTEC Greenhouse Controller

The AegisTEC Greenhouse Controller gives you the power to reliably automate your greenhouse. Get the peace of mind and energy savings of our integrated and easily expandable master controller system. Put your temperature, humidity, rain and wind control on autopilot so you can get back to doing what you do best. No more manual cranking or manual switch flipping. This curtain controller can automatically open and close your ventilation exactly the way you set it. Automating your greenhouse is the smart choice! Our greenhouse controller provides all-in-one control and power to ventilation drive motors, sidewall & rack and pinion hinged vents. No need for an additional power box. Easy to program with excellent feedback from controller.

Features:

- Timed overrides for DIF growing technique and Light Deprivation
- Optional wind, rain, and humidity sensor overrides
- Independent manual override
- Cooling and heating outputs in harmony
- Easy to program set points

ITEM #	DESCRIPTION	PRICE
GFA5VC40	AegisTEC Greenhouse Controller	$1,280.00

Greenhouse Humidity Sensor

Aspirated Greenhouse Humidity Sensor – Enables relative humidity control by implementing the ventilation, heating and cooling assets within the greenhouse. This sensor is for use with our environmental controllers.

ITEM #	DESCRIPTION	PRICE
GFA5VCSH	Humidity Sensor	$299.65

Wind Speed Sensor

This greenhouse wind sensor anemometer is made for use with our AegisTEC line of environmental controllers. Enables high wind overrides to protect your greenhouse sidewall and ridge ventilation asset.

ITEM #	DESCRIPTION	PRICE
GFA5VCUCCA1	Wind Speed Sensor	$250.00

Greenhouse Vent Controller

The VCU 2-24 Environmental Controller is a single zone, thermostatic controller for greenhouse heating and cooling. Featuring a user friendly LED interface, you can automate your greenhouse ventilation components. Perfect for high tunnels.

Get your greenhouse automation up and running quickly with this reliable and easy to setup controller.

Included: 100' temperature sensor, power and control up to (2) of our LVM60 or LVM100 motors, and control either (2) fans or (2) heaters or (1) of each!

Features:

- Manual overrides
- Easy to program set points
- Open and Close
- Idle and Run time
- Supplies 24 VDC to up to (2) of our LVM60 or LVM100 motors
- Control of (2) dry contacts (one of the options below)
- (2) Heaters
- (2) Fans
- (1) heater and (1) fan

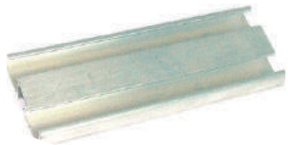

ITEM #	DESCRIPTION	PRICE
GFA5VCU2	Vent Control 110V/24V for Auto Roll Up	$845.00

Hand Polysealer

Hand held greenhouse plastic sealer, 110 volt, 25 watt. For welding 2-layer curtain plastic.

ITEM #	DESCRIPTION	PRICE
GFA5HS	PSHH Hand Poly Sealer 110V	$124.00

Double Wirelock

Double wirelock base is used above the roll up sides to fasten the main plastic to the top channel and the roll up curtain plastic to the bottom channel. In the event you have to replace the curtain plastic, you can do so without loosening up your main plastic.

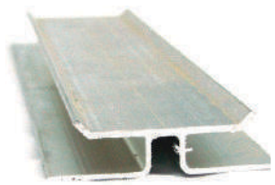

ITEM #	DESCRIPTION	PRICE	20+	50+
GFA108	DWL8 8' Double WireLock	$22.75	$21.61	$20.48
GFA110	DWL12 12' Double WireLock	$34.10	$32.40	$30.69

4' - Zig-Zag Wire

Zigzag wire is used in combination with the wirelock poly fastener, Universal Spring Lock or the double aluminum base. The plastic is pulled over the aluminum extrusion then the zigzag wire is "sewn" into the channel to secure the plastic.

ITEM #	DESCRIPTION	PRICE	50+
GFA104	4' SS ZigZag Wire	$.99	$.89

12' Divider H Channel

Double H channel is used to join 2 pieces of polycarbonate together.

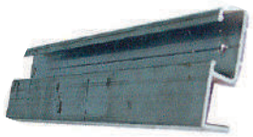

ITEM #	DESCRIPTION	PRICE
POL2H	12' Aluminum Divider H Channel	$19.60

Single Wirelock

- Does not pinch, bind, or weaken the material it secures
- Can be formed to top of curved bows used to splice plastic
- Channel holds up to three springs for a stronger grip or 2+ layers
- Film can be removed and reinstalled seasonally
- Works by pulling the material cross the channel and inserting the soft spring into place in the bottom of the channel.

ITEM #	DESCRIPTION	PRICE	20+	50+
GFA1	8' Single WireLock	$9.95	$9.45	$8.96
GFA10	12' Single WireLock	$14.95	$14.20	$13.46

End Bow Wirelock

Similar to Single Wirelock base but has a lip for polycarbonate.

ITEM #	DESCRIPTION	PRICE	10+
GFA112	12' End Bow Wirelock	$23.75	$22.56

12' Single H Channel

Aluminum extrusions for fastening polycarbonate to your structure.

ITEM #	DESCRIPTION	PRICE
POLH	12' Aluminum Single H Channel	$16.02

Roll Bar Cap

Fasten with tek screws. Roll bar cap is designed to fasten to a purlin pipe with the plastic clinched between the cap and pipe for the roll up sides. Clasps single or double layer of plastic to 1-3/8" pipe for roll-up sides.

ITEM #	DESCRIPTION	PRICE	24+
GFA4RBC	8' Roll Bar Cap	$8.70	$8.27

1 3/8" Purlin Pipe

Used for purlins or roll-up sides.

ITEM #	DESCRIPTION	PRICE	10+
GFA1315	12' Swedged Purlin Pipe (1-3/8" 17 ga.)	$14.25	$13.54

Roll Lock

Fastens to baseboard and securely holds plastic when rolled down for an air tight seal. 8' long.

ITEM #	DESCRIPTION	PRICE	10+
GFA5RL	8' Curtain Lock for Roll Up	$27.47	$26.10

2x4 End Wall Brackets

Attach these brackets to the top of the 2x4 studs and then attach to your end bow to support your end wall.

ITEM #	DESCRIPTION	PRICE
GFA241315	1-3/8" 2x4 End Wall Brackets	$2.55
GFA24166	1-5/8" 2x4 End Wall Brackets	$2.60
GFA24200	2" 2x4 End Wall Brackets	$2.75
GFA24250	2-3/8" 2x4 End Wall Brackets	$2.85

Aluminum Fabric Clips

Use to fasten plastic or shade cloth to purlins.

ITEM #	DESCRIPTION	PRICE	100+
FC007	Fabric Clip Fits 1" 0.92 OD	$1.72	$1.63
FC010	Fabric Clip Fits 1-3/8" Pipe	$1.06	$1.01
FC012	Fabric Clip Fits 1-5/8" Pipe	$1.32	$1.25

Pipe Straps

This is a heavy duty 3 hole pipe strap. The third hole is for a third screw to fasten the pipe to keep the pipe from moving or spinning.

ITEM #	DESCRIPTION	PRICE
GPS010	1-3/8" 3-Hole Pipe Strap HD	$0.80
GPS012	1-5/8" 3-Hole Pipe Strap HD	$1.05
GPS020	2" 3-Hole Pipe Strap HD	$1.17
GPS025	2-3/8" 3-Hole Pipe Straps	$1.45

Galvanized Square Tubing

An excellent way to make endwalls, benches, or doors. A 1.5"x1.5" square galvanized tube in 8', 12' and 16' sections. We have angle brackets to attach the square tubing to the bows or to each other. Stronger than aluminum for a stronger endwall or bench.

ITEM #	DESCRIPTION	PRICE	10+
SQT8	8' 16ga 1.5" Swedged Square Tubing	$16.25	$15.44
SQT12	12' 16ga 1.5" Swedged Square Tubing	$24.05	$22.85
SQT16	16' 16ga 1.5" Swedged Square Tubing	$31.85	$30.26
SQT162	16' 16ga 2" Swedged Square Tubing	$41.75	$40.50

Gable Angle Brackets

Use this gable angle bracket to attach the horizontal 1 1/2" square tubing to your vertical square tubing, or use these brackets to make your benchtop frames to attach your bench tops for a flower bench.

ITEM #	PRICE	100+
GFAGBLANG	$0.68	$0.65

End Wall Bracket 1.5" Tubing

Attach these brackets to the top of the 1.5" square tube and then attach to your end bow to support your end wall.

ITEM #	DESCRIPTION	PRICE
GFA3310	End Wall Bracket for 1.5" Tubing	$3.96

Brace Bands

Brace bands are used to fasten wind bracing, 2x4 brackets to end bows, etc.

ITEM #	DESCRIPTION	PRICE
GFA31315	1-3/8" Beveled Brace Bands	$1.17
GFA3166	1-5/8" Beveled Brace Bands	$1.25
GFA3200	2" Beveled Brace Bands	$1.36
GFA3250	2-3/8" Beveled Brace Bands	$1.44

Strap Cross Connectors

This unique, 2-piece aluminum connector retains 100% of frame's strength. It comes with bolts and nuts. Excellent for connecting purlin pipe to greenhouse trusses for hanging basket supports.

ITEM #	DESCRIPTION	PRICE	50+
GCC1315	1-3/8" x 1-3/8" Cross Connectors	$3.30	$3.14
GCC166	1-3/8" x 1-5/8" Cross Connectors	$3.49	$3.42
GCC200	1-3/8" x 2" Cross Connectors	$3.59	$3.41

Aluminum Rope Hook

This rope hook is clipped into the top wirelock base on top of the roll up side. The rope is then run through the hook down to a eye screw then back up to the hook alternating every other bow. This keeps the curtain from flopping in the wind.

ITEM #	DESCRIPTION	PRICE	25+
GFA5RH	Aluminum Rope Hook per piece	$.96	$.91

Poly Patch Tape

A rugged patching tape for preventative maintenance in areas of high stress and is perfect for mending greenhouse rips and tears.

ITEM #	DESCRIPTION	PRICE
PPT02	2" x 48'	$10.34
PPT04	4" x 48'	$19.75
PPT06	6" x 48'	$28.39

Felt Poly Tape

This felt tape is designed to be applied to any bow or any place where there is a possibility of your plastic tearing or rubbing a hole in your greenhouse film.

ITEM #	DESCRIPTION	PRICE
PPFT08	1.5" x 48'	$19.70

Vinyl Batten Tape

This high tensile batten tape is used to fasten plastic to the end of a greenhouse. You would staple through the batten tape and the plastic to the stud to keep the plastic tight.

ITEM #	DESCRIPTION	PRICE
GGA500	3/4" x 500'	$45.00

Aluminum Solid Tape

Use this tape to close up the top of polycarbonate to keep out insects, dirt and other foreign matter from entering from the top.

ITEM #	DESCRIPTION	PRICE
POLA	2" x 150'	$19.12

Vented Tape

Use this tape to close up the bottom of polycarbonate to keep out insects, dirt and other foreign matter from entering from the bottom and also to aid in drainage of condensation.

ITEM #	DESCRIPTION	PRICE
POLV	1.5" x 108'	$34.80

UV Resistant Curtain Strapping

UV resistant webbing to install over a greenhouse in place of rope.

SEB03003	5/16" X 3" Eye Bolt	$2.38
SEB06003	3/8" X 6" Eye Bolt	$3.10

Eye Screw

ITEM #	DESCRIPTION	PRICE
SEB04003	5/16" X 6" Eye Screw	$2.46

Guide Pipe w/ Chain Assembly

Attach this guide pipe to your end bow so your crank does not spin. It keeps your crank solid and makes it a lot easier to crank up your roll up sides.

ITEM #	DESCRIPTION	PRICE
GGP6C	6' x 1"	$16.54

Roll Pipe Installation Aids

This small hanger is almost a must have when it comes to putting the plastic on your roll up sides. It holds the purlin pipe perfectly straight while you screw the roll bar cap onto the pipe to give you a straight roll up side.

ITEM #	DESCRIPTION	PRICE
RPHRL	Single Piece	$1.13

Greenhouse Spacer Blocks

ITEM #	DESCRIPTION	PRICE
GEAGSB	Greenhouse Spacer Blocks	$6.45

Dura-Bench Table Top

ITEM #	DESCRIPTION	PRICE	20+	QTY DISCOUNTS
LIFBE	2' x 4' Dura-Bench Table Top (Heavy weight)	$17.95	$17.05	(280+) $16.16
LIFBEL	2' x 4' Dura-Bench Table Top (Light Weight)	$14.85	$14.11	(210+) $13.37
LIFBEL3	3' x 4' Dura-Bench Table Top (Light Weight)	$18.45	$17.53	(105+) $16.61

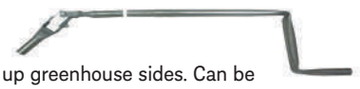

1" Neoprene Washer

1" galvanized neoprene washers are used to fasten polycarbonate to any structure. It has a wider holding surface for maximum holding power.

ITEM #	DESCRIPTION	PRICE
POL010	100/Bag	$11.85

PTO Hand Crank

Economical hand crank to roll up greenhouse sides. Can be extended with standard purlin pipe used as an extension.

ITEM #	DESCRIPTION	PRICE
GFA5HC	2'6" PTO Hand Crank & Swivel	$30.34

Roll-Up Operator Packages

An easy to crank gear crank with 5:1 ratio with a internal brake that holds the roll up sides when you stop cranking. It will crank up to 120' of roll up sides.

ITEM #	DESCRIPTION	PRICE
GFAM10B	Roll-Up Gear Crank	$94.66
GGP6C	6' x 1" Guide Pipe w/Chain Assembly	$13.78

Ground Post Driver

This driver fits inside your ground post to pound it into the ground and not damage the top of the post.

ITEM #	DESCRIPTION	PRICE
BEIGROPOD1 5/8	1 5/8" Ground Post Driver	$23.40
BEIGROPOD	2" Ground Post Driver	$27.30
BEIGROPOD025	2-3/8" Ground Post Driver	$31.20

POLYETHYLENE FOR INDUSTRY & AGRICULTURE

Bringing Hi-Tech Innovations to Horticulture

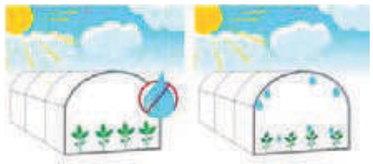

SunView Therm

Benefits
- Energy savings
- Minimized condendsation issues
- Consistant plant canopy - light diffusion
- 87% light transmission

Features
- Thermal
- Light diffusion
- Anti-condensation
- Available in 6 mil
- Superior dart impact performance

Light diffusion

Light diffusion increases photosynthetic efficiency by providing more homogeneous light from all directions. The film reduces shadows, helps minimize burning and ensures better distribution of light Poly-Ag Corp specifically formulates its films for optimum performance related to crop response.

Thermicity & Condensation

Thermicity: During the day, the greenhouse structure, plants and soil heat up due to both visible and infrared light from the sun. In the evening it cools down and re-emits radiation within the IR range. Special properties are incorporated within the film which block IR radiation and help maintain a controlled temperature in the greenhouse, providing plant insulation and less cycling of heaters at night. We offer two Thermal films. One of which offers 30% Light diffusion. The second has an industry-leading 55% Light Diffusion! Anti-condensation: The properties modify the film surface; as a result water droplets are spread into a continuous water layer which subsequently runs down along the slope of the film. These films increase light transmission and reduce water drip.

Benefits
- Durable
- Excellent top layer performance
- Superior puncture resistance
- 90% light transmission

Features
- Made from latest resin technologies
- High clarity
- Available in 6 mil
- Superior dart impact performance

Light quality

he total light transmission of the greenhouse covering is extremely important for Photosynthetically Active Radiation, 400—700 nanometers. The intensity of these wave lengths in the PAR range directly influences the growth and development of the plants. Poly-Ag Corp specifically formulates its films for optimum performance related to crop response.

SunView 4

SunView 4 was developed to meet the growing needs of the growers in North America to produce quality crops. Our HighTechnology greenhouse films are based on the latest developments and technologies in the manufacturing process. SunView 4 is designed to transmit more light while maintaining superior mechanical properties.

Ken-Bar Poly Convection Tubing

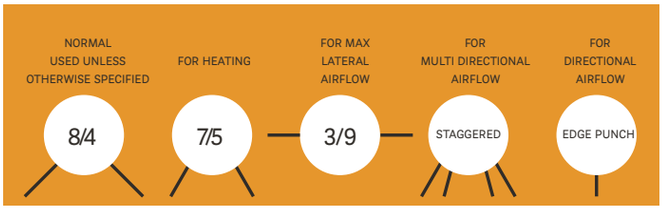

Ken-Bar's poly convection tubing is clear and is protected with a strong ultraviolet inhibitor. The formulation of the plastic is designed for maximum light penetration and for durability in a greenhouse environment. A properly designed tube will make full use of the fan's output by distributing air effectively down the length of the greenhouse.

Custom punching. Ken-Bar provides proper diameter holes and spacing that conform to fan manufacturer's specifications. A properly designed tube will make full use of the fan's output by distributing air evenly down the length of the greenhouse. We can custom design a tube based on your greenhouse length and fan diameter. Punch position can be varied as shown in the chart to provide the best possible air flow for each situation.

Price per foot.

BioTherm Bench Heating System

At BioTherm, we've been warming up greenhouses—and boosting crop yields—for 45 years. Our targeted hydronic heating systems solve traditional inefficiencies by delivering consistent, optimized heat exactly where it's needed. Whether you're growing leafy greens or high-value crops, our solutions cut energy costs, improve plant health, and create the ideal growing environment.

Hydronic heating -- efficiency you can count on! Hydronic heating is the gold standard for efficiency in cultivation environments. By circulating hot water through your greenhouse, this system delivers consistent, even heat while reducing energy consumption and operational costs.

Root zone heating, where growth begins. Root zone heating takes efficiency one step further by targeting heat where it matters most—your plants' roots. Warm roots encourage faster growth, stronger plants, and higher yields, making it the best heating option for cultivation environments.

Fans

Full 2-Year Warranty
Made in USA

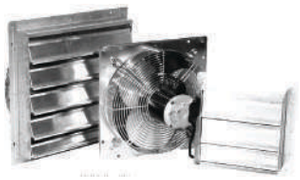

Twister Exhaust Fan

The Twister is manufactured with a heavy gauge housing and butterfly shutters that open easily on startup, and spring closed when not in use to create a tight weather seal.

- Heavy duty 18 gauge galvanized housing
- Aluminum prop with zinc plated hub is balanced for smooth
- Vibration-free operation
- Fan comes fully assembled for easy installation

ITEM #	DESCRIPTION	PRICE
JET24	24" · 25.25" RO* · 4820 max dfm	$454.28

Shutter Fan

Shutter fans are ideal for greenhouse or building exhaust. These fans are quiet and can efficiently move large amounts of air. The 12", 16" and the 20" fans are 3 speed and the 24" is a 2 speed.

- Pre-wired with 9' 115V cord
- Aluminum shutters are reinforced with steel corner braces
- Guards have zinc plating under powder coating
- OSHA approved guard spacing

ITEM #	DESCRIPTION	PRICE
JSF12	12" · 12.5" RO* · 1,100 max cfm	$114.75

Aluminum Intake Shutters

Aluminum intake shutters or free air exhaust applications. Nylon bearings with solid shafts for a long life span. Interlocking blades for weather seal.

Outside

Inside

Features:

- Corrosion resistant heavy gauge aluminum frame.
- Precision counterbalanced aluminum blades open easier and wider to permit higher performance capacity.
- Corrosion proof nylon bearings throughout help prevent sticking.
- Suitable for dusty or humid applications.
- Stainless steel hinge pins will not rust and insure easy positive blade action.
- All shutter blades are reinforced with polished galvanized steel rods, and equipped with double tie-rods.
- Some models are center pivoted to open easier against house static pressures.

Thermocool 110V 122 CFM (Inflation Blower)

This light weight inflation blower is a very economic option to inflate your greenhouse plastic. Installation is very easy, find the direction of air flow on the blower. Cut a X a little smaller than the blower housing in the plastic at your desired location. Pull the X tabs toward the inside of the greenhouse and apply several wraps of duct tape or electrical tape around the whole outside of the blower housing. you do not need any kind of bracket or mounting kit, since this light weight blower just hangs on the greenhouse plastic.

ITEM #	DESCRIPTION	PRICE
VBM122	Thermocool 110V, 122 CFM (Inflation Blower)	$26.15

Thermostats

Every greenhouse environment needs climate control. A greenhouse too warm or cool can mean a great difference in the quality of plants or product produced. Use our thermostats to help control the climate of your greenhouse or building.

Propane Heaters

Hot Dawg Modine Heaters

Model Hot Dawg Features:

- Hush-puppy quiet operation.
- Uses natural or propane gas.
- Certified for residential, commercial and industrial use.
- Low-profile design and neutral color to blend in with decor.
- Install quickly and easily with field wiring connections and knockouts for quick access to gas and electricity.
- Standard power exhaust simplifies side-wall or roof venting with small-diameter vent pipe.
- Right or left hand controls available on all 30-75 units. Gas, electrical and flue connections can be changed by simply flipping the Hot Dawg over.
- Permanently-lubricated motor for trouble-free dependability.Full 10-Year Warranty On Heat Exchanger

ITEM #	DESCRIPTION	PRICE

Modine Propane Heaters – PTP Heater

Here is the power vented, PTP unit heater line with the stainless steel bent tube heat exchanger standard. The PTP was specifically designed with the customer in mind to provide high value at a reasonable cost. Backed by Modine's nearly 100 years of pioneering HVAC innovation, the horizontal mounted PTP delivers reliable performance and longer life in a small-business-friendly package.

Model PTP features:

- Stainless steel heat exchanger comes STANDARD on all units, extending the life of your investment
- Totally enclosed, permanently lubricated fan motor outside the cabinet is standard for trouble-free dependability
- Constructed with Modine's proven tubular heat exchangers for a low-profile design on jobs with lower mounting heights
- Proudly Made in the USA
- 10-year heat exchanger warranty is STANDARD, providing you peace of mind
- Optional finger-proof fan guard for low mounting height applications
- Power exhauster and controls mounted inside the cabinet for protection from airborne moisture and dust
- Installs quickly and easily with knockouts and field gas and wiring connections inside a roomy controls section for quick and easy access

Effinity Propane Heaters

At 93% thermal efficiency for all model sizes, Modine's Effinity93 condensing unit heater features the highest efficiency available in North America for commercial and industrial gas-fired unit heaters. This industry leading efficiency is a result of the coupling of our Conservicore TM secondary heat exchanger technology with our robust tubular primary heat exchanger design. The Conservicore TM technology features a secondary recuperative heat exchanger fabricated from AL29-4C® stainless steel. This material is superior to other lower grades of stainless steel and aluminum, resulting in outstanding ability to withstand the corrosive environment of condensing gas fired equipment. **We are now stocking the Effinity heaters.**

Berger
Grow Smarter.

Looking for 10 or more palletsof soil? Please call for special pricing!

Berger was the first peat producer in Canada to be ISO 9001 certified and is one of the first Veriflora certified peat producers.

- Consistent Quality products shipped in more than 15 countries
- Highly trained sales team combining over 200 years of experience.
- Over 98% of Berger clients answered "yes" when asked whether they would recommend Berger Peat Moss to others!
- Over 225 SME analysis are done weekly in the Berger lab.

BM6

All-Purpose - INCUBATED PH = 5.4 - 6.2
The classic peat-and-perlite growing medium is made exclusively with superior ingredients and stringent quality-control specifications. An easy, versatile, and adaptable mix.

- Most versatile Berger product.
- Easy to manage under varied conditions and container sizes
- Recognized as a best value product for many crops.
- Consistent and iniform for predictable results.

ITEM #	DESCRIPTION	PRICE	10+	QTY DISCOUNTS
BM6	3.8 cu ft compressed	$27.34	$26.79	30+ $25.97
BM6-3	3 cu ft loose potting soil	$14.91	$14.61	54+ $14.16

BM4

Natural Fiber - Wood – INCUBATED PH = 5.4 - 6.2
Contains an eco-friendly, sustainable woodfiber component that mixes perfectly with peat.

- Offers high water retention combined with rapid air diffusion for very rapid root development.

· Stable and uniform for the most consistent crops. · All organic and compostable with smaller environmental footprint than coir, perlite and vermiculite.

ITEM #	DESCRIPTION	PRICE	10+	30+
BM4	3.8 cu ft compressed	$25.87	$25.35	$24.58

BMM

Berger Mum Mix – INCUBATED PH = 5.4 - 6.2
Made with our professional grade composted peat moss, this substrate increases the amount of available water.

- Contains additional nutrients and beneficial micro-organisms.

· Improved water retention and distribution in containers. · Higher CEC for increased buffering capacity. · Good for post-harvest environment (retailers & box stores).

ITEM #	DESCRIPTION	PRICE	10+	25+
BMM	3.8 cu ft compressed	$28.92	$28.34	$27.47

BM2

Seed Germination – INCUBATED PH = 5.2 - 6.0
High-quality, general-purpose plug mix for unmatched uniformity during seed germination and seedling production. This fine-textured medium is designed for dry conditions or when additional moisture is required.

· Easy-to-use mix fills small cells perfectly for consistent growth · Balanced water-to-air ratio allows rapid root ball development · Vermiculite improves water distribution and management. · High CEC reduces pH and EC variation · Flexible and forgiving substrate · Low fertilizer starter charge lets you control fertigation

ITEM #	DESCRIPTION	PRICE	10+	QTY DISCOUNTS
BM2	3.8 cu ft compressed	$34.98	$34.28	30+ $33.23
BM2-3	3.0 cu ft loose fill bag	$17.45	$17.10	54+ $16.58

BM5

Natural Fiber & Aggregate - Wood – INCUBATED PH = 5.4 - 6.2

The combination of NF Wood and perlite offers a good balance between drainage and water retention. Easy transition from a peat/perlite mix. Includes all the benefits of the NF wood with the security of perlite.

- Highly versatile
- Reduces chemical use and input costs
- Unique soil structure designed for very rapid root development
- Uniform and stable for even growth

· Increased volume per bale in compressed formats

ITEM #	DESCRIPTION	PRICE	10+	30+
BM5	3.8 cu ft compressed	$26.61	$26.08	$25.28

Pro-Mix FPX with BIO

- Easy filling of trays
- Improved drainage and air exchange for developing roots
- Dries out faster than peat/vermiculite blends for easier water management
- Reduced calcitic limestone for better control of pH with high water alkalinity
- Reduced fertilizer charge for better control and to prevent seedling "stretch" and growth

· Accelerates seed germination and plant establishment · Reduces the need for fungicide drenches · Reduced incidence of plant root disease

ITEM #	DESCRIPTION	PRICE	10+	30+
PM630B	Promix FPX Germinating Mix w/Bio· 2.8 cu ft	$20.16	$19.76	(57+) $19.15

Coast of Maine Bar Harbor Potting Soil

Coast of Maine Bar Harbor Blend Premium Potting Soil is now available in a new, lighter formulation. It is made with salmon, blueberry, lobster and other composts, calcium and chitinrich lobster shells, sphagnum peat, perlite and kelp meal and designed for potting house plants, planting hanging baskets, window boxes and all containers. The compost gives it deep dark brown color as well as helping retain moisture.

ITEM #	DESCRIPTION	PRICE	10+	48+
COAMABH	2 cu ft loose	$14.81	$14.51	$14.07

Coast of Maine Seed Starter Mix

Sprout Island Organic Seed Starter is designed for seed germination & rooting plant cuttings. It is ready-to- use in cell packs or flats and provides natural moisture retention & aeration. Includes mycorrhizae, worm castings, kelp and fully-cured compost.

ITEM #	DESCRIPTION	PRICE	10+	48+
COAMASI	2 cu ft loose	$17.67	$17.32	$16.79

Coast of Maine Lobster Compost

Coast of Maine Quoddy Blend Lobster Compost is our best-selling soil, made with chitin and calcium-rich lobster shells, compost and peat humus. The result is a dark-brown, complex soil that drains well and is ideal for conditioning beds and borders, vegetable gardens, herbs and annuals!

ITEM #	DESCRIPTION	PRICE	10+	80+
COAMALC	1 cu ft loose	$7.97	$7.79	$7.55

Pro-Mix BX with MYC

· Answers the needs of most growing applications · Light-weight, low bulk-density · High water-holding capacity · Supports plant root systems · Enhances nutrient and water uptake

ITEM #	DESCRIPTION	PRICE	10+	30+
PM138	With Mycorrhizae · 3.8 cu ft	$33.87	$32.21	$31.23

Pro-Mix BX with BIO & MYC

- Answers the needs of most growing applications
- Light-weight, low bulk-density
- High water-holding capacity
- Accelerates seed germination and plant establishment
- Reduces the need for fungicide drenches
- Reduced incidence of plant root disease
- Encourages healthy plant root systems
- Enhances nutrient and water uptake

JIF130	3" Round, 3" Deep	1,404	$91.75	$89.00

Coconut Coir

Coconut Coir is a 100% natural by-product of harvesting coconut. Coir consists of the coarse fibers extracted from the husk on the outer shell of a coconut. Because of its superior water holding capacity, excellent air space and drainage, coir is a useful soil amendment for potted plants, containers and gardens. Coir's neutral pH of 5.8–6.8 allows it to efficiently release nutrients to plant roots and reduces the need to use dolomite lime. Add water and soak your brick for at least 1 hour before using it. A fully-hydrated brick can hold eight to ten times its volume in water.

ITEM #	DESCRIPTION	PRICE	70+
COCCO	2 cu ft/bale	$9.50	
COCCOL1.5	Loose Bags. - 1.5 cu ft/bale	$11.25	$10.69

Coconut Coir Grow Bags 5 Gal

Set these coir grow bags in place, add water to expand the coco coir media and plant. These grow bags are popular for tomatoes, cucumbers, berries and cannabis. Grow bags come complete and include coco coir block. Drainage holes are predrilled.

Convenient · Pre-Washed · LOW EC · pH 5.6-6.5

ITEM #	DESCRIPTION	PRICE	100+	300+
COCCOGP5	Coconut Coir Grow Bags 5 Gal	$4.40	$4.18	$3.96

Vacuum Seeder

- An economical, fast, and easy way of seeding seeds into trays
- Seed plates are made of aluminum and are very easy and quick to change via clamps
- Easy to use, hook up a vacuum to hose, spread seeds over plate and seeds will be vacuumed to the micro holes in plate, flip seeder box to the side with the seed reservoir section down and excess seed will fall into seed reservoir section, then turn the over the seeder box upside down over the tray and close valve to cut vacuum and seeds drop into tray
- Multiple tray sizes available

ITEM #	DESCRIPTION	PRICE
VACSEB	Vacuum Seed Box	$215.00

For over 80 years, Miller has been solving tough challenges for growers worldwide through science, experience, and innovation. Serving customers in more than 90 countries, we focus on building strong relationships and delivering consistent, high-value results—one crop at a time.

Our team of skilled agronomists, horticulturalists, and crop advisors provides expert support and customized programs to help growers maximize their return on investment. Every product we offer is grounded in science and backed by years of university research, field trials, and real-world data.

Nutri-Leaf 20-20-20 (Greenhouse)

Greenhouse Special™ 20-20-20 is a balanced soluble nutrient fertilizer of high technical grade with micro elements designed to enhance the yields of the crops throughout their growth cycle when balanced fertility is required for vegetative and crop development.

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
MIL325	Nutri-Leaf 20-20-20 (Greenhouse)	25 LB	$52.80	$51.74

Miller's 20-10-20

Millers 20-10-20 is a good general purpose fertilizer with a lower phosphorus content. Generally used on flowers and bedding plants. Can be applied foliar or through drip irrigation.

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
MIL201020	Miller's 20-10-20	25 LB	$60.50	$59.29

Greenstim

Greenstim® 2-8-14 fertilizer is a proprietary liquid crop fertilizer combined with plant biostimulant components. This premier biostimulant is engineered to enhance crop health and fortification against abiotic stress. As a foliar nutritional supplement, it promotes vigorous root and plant growth during environmental stress while strengthening crop resiliency and stress resistance.

ITEM #	DESCRIPTION	PRICE	10+
MIL250	Greenstim 2-8-14 (2.5 gal)	$197.16	$191.25

Microplex

Microplex® is a blend of eight EDTA-chelated micronutrients for maximum plant response in foliar and soil applications. Highly effective for diagnosed or suspected micronutrient deficiencies, it is easy to handle and highly soluble in spray solutions and drip irrigation systems. Suitable for foliar applications, liquid feeds, hydroponic mixes, and soil applications, Microplex® is compatible with phosphate-based fertilizers.

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
MIL102	Microplex (5lbs.)	5 LB	$48.26	$46.81

Iron Chelate

Miller Iron Chelate DP is a source of iron in a form which is readily available to plants. It performs best in slightly acidic to slightly alkaline, calcareous soils with a pH of 6.0–7.5. For optimum results, apply early in the growth cycle unless otherwise specified.

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
MIL93	10% Iron DP Chelate (5lbs.)	5LB	$66.92	$64.91

OneShot

OneShot is a unique water conditioner blend with added surfactants to improve efficacy of fertilizers and pesticides while also lowering pH. OneShot contains water conditioning complexes that sequester hard water metal cations like iron, magnesium, zinc, and especially calcium to prevent hard water cations from binding with the fertilizer or pesticide.

ITEM #	DESCRIPTION	PRICE
MILOSPH	One Shot PH Conditioner(2.5 gal)	$105.50

pHusion

pHusion™ is a unique utility modifier that acts as a water conditioner and pH modifier to lower the pH of a tank solution. pHusion™ lowers water pH, reducing hard water cation interactions that can limit herbicide and fertilizer performance. Irrigation water and soil pH in the range of 5.5–6.5 enhance nutrient availability. Water alkalinity affects the amount of pHusion™ required to adjust pH.

ITEM #	DESCRIPTION	PRICE
MILPHU	pHusion Water Conditioner (2.5 gal)	$49.75

Soline

With a balanced combination of natural plant hormones and biostimulant components, Soline® enhances early vegetative growth, improves stress tolerance, and promotes strong root development in crops. This advanced formulation includes Auxin, Gibberellic Acid, and the novel Homobrassinolide (HBR)—a next-generation brassinosteroid known for boosting crop resilience and productivity.

ITEM #	DESCRIPTION	PRICE	4+
MILSOL	Soline Biostimulant/Growth Reg. (1 gal)	$135.59	$131.33

Established in 1922, Plant Marvel Laboratories pioneered and popularized the use of water soluble fertilizers. We introduced our original 12-31-14 General Purpose Hi Phosphate formulation over 90 years ago helping to fuel the growth of soil-less growing and hydroponics. Some years later we found a way to incorporate soluble forms of minor and trace elements into our expanding line of soluble N-P-K fertilizers. This became the first commercial fertilizer to deliver a total nutrient feed to crops without fear of burning and with unparalleled ease of application. It provided almost instant response because all nutrients were in a form the plants could utilize immediately. We called it Nutriculture.

Over the years, we helped pioneer the concept of foliar feeding and widespread use of water solubles in the commercial market. But our most important innovation has been the incorporation of all necessary trace elements into every N-P-K formula we manufacture. Today this practice is becoming standard with all fertilizer manufacturers.

Plant Marvel 5-12-26 Hydroponic Fertilizer

- **Designed as base feed in hydroponic system.**
- **Versatile application provides optimum nutrition for crops at different growth stages.**

5-12-26+ Hydro is formulated to compliment calcium nitrate in at wo-part hydroponic system. This analysis may be used at different mix rates, allowing nutrient ratio changes to address plant need sat different stages in the plant's growth cycle.

ITEM #	DESCRIPTION	PRICE	10+
PM51226	Plant Marvel 5-12-26 Hydroponic Fertilizer	$39.50	$37.92

PM17517, Plant Marvel 17-5-17 Cal Mag Special

This Cal Mag Special formula is probably very close to being the perfect fertilizer all in one bag. It contains all the major, secondary and minor elements almost any crop would need. NPK, calcium, magnesium, six trace elements and a very high ratio of nitrogen in nitrate form. The calcium to magnesium ratio is perfectly proportioned so that they will not impede one another's uptake by acting as antagonists. And while slightly on the acid side, this formula allows the delivery of these essential cations without a major impact on media pH.

Cal-Mag 17-5-17 plus - With 4% Calcium and 1% Magnesium

- NPK Ca Mg and trace elements all in one mix
- High nitrate N

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
PM17517	Plant Marvel 17-5-17 Cal Mag Special	25 LB	$35.80	$34.37

General Purpose 20-10-20PLUS

General Purpose 20-10-20PLUS is an all purpose feed with elevated levels of Nitrate Nitrogen to give better nutritional control when feeding the cool darker months. Commonly used as a foliar application or root feed on ornamentals, turf and nursery stock. Because it is formulated to provide a balance of both major and minor elements, it is a safe choice when feeding a wide range of plant life with the same fertilizer. It will provide immediate but gentle nourishment in a form of application that can overcome and bypass other nutrient complication due to soil problems.

· Higher levels of Nitrate N ·
Fully Chelated Minors · 100%
Soluble

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
PM201020	General Purpose 20-10-20PLUS	25 LB	$38.25	$36.72

Nutriculture General Purpose 20-20-20

Nutriculture General Purpose 20- 20-20 provides over 60% nutrient value in a 1-1-1 ratio which makes it suitable for general use in a wide variety of growing situations. It is widely used on containerized stock in the nursery industry and for greenhouse crops such as foliage plants and bedding plants. For institutional and general landscape maintenance, it is ideal because it works well on turf, trees or shrubs as well as blooming plants and can be used as a single all-purpose spray feed.

· NPK and trace elements all in one mix ·
Fully chelated minors

Hi-Cal Special 15-0-15PLUS

Hi-Cal Special 15-0-15PLUS is a plug growing formula with high nitrate nitrogen, calcium, magnesium, and minor elements, all combined into a totally soluble mix. The trace elements are delicately balanced at levels that have proven to perform well. This formula will work well when phosphate is not a problem or is being supplied separately. Although designed for plug growing, this formula will work equally well on any crop that may be sensitive to ammoniacal nitrogen during low light periods. Test nutrient levels in both water and growing media prior to use. Suggested use on a constant feed basis is at 100 PPM nitrogen or on intermittent feed basis 200 PPM nitrogen. Use growth results and nutritional monitoring to adjust this rate.

· Increased Molybdenum ·
High Nitrate Nitrogen

PM15015	Hi-Cal Special 15-0-15PLUS	25 LB	$31.25	$30.00

Plant Marvel 15-5-30 Pot Mum Finisher (K Mag)

This high potash formula is ideal for overcoming potash deficiency or for building up hardiness and fibrous qualities of stems and leaves. May be applied in solution by a proportioner through sprinkler systems, by irrigation or any conventional ground rig and may be applied in combination with most insecticides, herbicides and fungicides. Avoid applications during peak sunlight hours.

- Promotes stiff stems and sturdy leaf growth
- High nitrate N · Provides magnesium · Helps prevent tip burn

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
PM15530	Plant Marvel 15-5-30 Pot Mum Finisher	25 LB	$38.99	$37.43

Plant Marvel 18-6-18 Mag-Iron Fertilizer

Formulated for growers with high calcium bicarbonate water who need to compliment their magnesium level, while supplying additional Iron to insure uptake at an elevated media pH. The higher Iron levels are provided in two different chelated forms, EDTA and HDTPA. These will guarantee uptake even at extremely high media pH levels. This formula is also recommended as an excellent choice for managing lush green controlled growth on annuals such as calibrochoa, chrysanthemums, petunias, vinca, roses etc. With over 60% of its Nitrogen in the Nitrate form it will also work well as a dark weather feed.

- Elevated Iron chelated in two forms to handle a broader media pH range · High magnesium · High nitrate nitrogen

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
PM18618	Plant Marvel 18-6-18 Mag-Iron Fertilizer	25 LB	$37.25	$35.78

Plant Marvel 16-3-16 Cal Mag Special

- Ideal basic feed for most low light situations.
- Multiple forms of iron chelation to work over a broad pH range.

Developed as an alternative to our Cal Mag 17-5-17+ to give greater control over vegetative growth without sacrificing the calcium and magnesium. It has a neutral potential acidity, and it also contains a combination of three different forms of iron chelates, EDTA, DTPA, and EDDHA, that makes iron available over a broader pH range, as well as in wet soil conditions. It will ensure availability under alkaline soil conditions. It also helps control the tendency to stretch and promotes healthier growth while inducing excellent longer-keeping blooms.

ITEM #	DESCRIPTION	PRICE	10+
PM16316	Plant Marvel 16-3-16 Cal Mag Special	$34.75	$33.36

Plant Marvel 15-5-15 Geranium Feed

This formula supplies most of its nitrogen in the nitrate form and is an ideal feed for crops responsive to nitrate nitrogen during low light periods and all ammonium sensitive plants. It is also an ideal source of calcium and magnesium that is immediately available and ideal for overcoming a calcium deficiency. It will maintain solubility in concentrate tank when calcium nitrate and/or magnesium nitrate are added. To avoid calcium precipitation do not mix with other fertilizers or materials that contain phosphate or sulfur compounds.

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
PM15515	Geranium Feed	25 LB	$34.75	$33.36

Plant Marvel 20-3-19 Petunia Feed

20-3-19 Petunia Formula has elevated levels of Iron and Magnesium and multiple chelate system specifically designed for Petunias and other high iron demanding crops. The extra iron prevents yellow tips while the magnesium works to help low leaves green. A high nitrate N and low phosphate feed that encourages dense, compact, healthy growth in petunia and other flowering crops.

ITEM #	DESCRIPTION	QTY/WEIGHT	PRICE	10+
PM20319	Petunia Feed	25 LB	$37.95	$36.43

Plant Marvel Super Start 12-45-10PLUS

Super Start 12-45-10PLUS is especially designed as a starter solution which aids plants in rooting faster. It helps overcome transplanting shock. Its nitrogen content is low enough to prevent burning and still promote new top growth. Super Start is widely used in greenhouse and nursery operations to correct and supplement low phosphorous levels in established plantings. It is also very effective in promoting blossoming. Young vegetable plants being set in the field respond especially well to this starter formula. Use for seedling, transplants and rooted cuttings. Excellent for container azaleas and rhododendrons to promote compact growth and increase bud density.

- Establishes seeds and seedlings fast
- Develops strong roots

Haifa Multicote® Controlled Release Fertilizer

This fertilizer is a premium nutrient delivery system engineered to optimize plant growth by gradually releasing nutrients over time. Each granule is coated with a specialized polymer that regulates nutrient release based on soil temperature and moisture levels. This ensures a consistent and balanced nutrient supply throughout the plant's growth cycle.

By minimizing nutrient loss from leaching or volatilization, Multicote® improves nutrient-use efficiency and supports environmentally responsible practices. The result is more uniform plant growth, improved yield quality, and reduced labor and application costs. Multicote® delivers a full spectrum of macro and micronutrients to support balanced plant development. It is particularly well-suited for nurseries, landscaping, and vegetable production in soilless media. This controlled-release technology is also an excellent solution for maintaining plant nutrition between fertigation intervals—or in operations where fertigation is not used. Haifa's 15-9-15 homogeneous prill blend is well-suited for greenhouse-grown ornamentals, while the 18-6-12 formulation provides additional nitrogen, making it ideal for outdoor ornamentals like mums.

Calcium Nitrate (Greenhouse Grade)

Calcium nitrate (PureCal) is a fully water soluble fertilizer, that is a highly efficient sources of available calcium and nitrogen for plants under all growth conditions. It is a highly pure, white, fine crystal that is easily dissolved in water. Suited for application through all fertigation and foliar application systems – drip systems, low volume sprinklers, center pivots and spray units.

As calcium is not mobile in the plant, it has to be continuously supplied throughout the growth season to keep adequate levels in the plant tissues and to ensure proper development. The nitrate nitrogen is readily absorbed by the plant and improves the efficiency of calcium uptake.

MycoApply Ultrafine Endo

MycoApply® Ultrafine Endo is a suspendable powder mycorrhizal inoculum consisting of 4 species of endomycorrhizal fungi. About 85% of the world's plant species form symbiotic relationships with this type of symbiotic soil fungus. These beneficial fungi greatly increase the effective rooting area of plants, thereby enhancing plant growth, vigor, and tolerance of environmental extremes. MycoApply® Ultrafine Endo is a concentrated, fine, suspendable material with a particle size less than 300 microns (will pass a #50 screen) containing mycorrhizal propagules, which colonize roots and extend into the surrounding soil forming an essential link between plants and soil resources. Increasing the rooting area allows improved access to water and nutrients, promoting plant quality and crop performance. We are now carrying the MycoApply Injector Endo which is very concentrated that will treat 500 gallons where the MycoApply Ultrafine Endo will treat 37 gallons.

Pressure Compensated Plastic Weight Drippers

This feature allows the dripper assembly to be closed easily with one hand, preventing water and fertilizer from dripping on the plants or walkways below. With a quick glance, it's easy to see if the assembly is open or closed.

ITEM #	SIZE	PRICE	500+

	1/2" GPH - 2		

iDrop Online PC Dripper

Irritec iDrop online drippers are pressure compensating with CNL feature, they'll close at 4 PSI. The turbulent flow path provides superior plug resistance and requires little maintenance. Made with UV resistant materials for long life durability. Compact in size, color-coded for easy flow identification. Barbed outlet fits tubing and press fits onto manifolds.

ITEM #	GPH	PRICE	500+

Foggers

The Senninger Fogger helps reduce temperatures and increase humidity levels in greenhouses. It distributes extremely fine droplets with excellent pattern uniformity creating ideal conditions for plant propagation.

Features:

- Built-in check valve provides instantaneous shutoff and helps prevent leakage
- Easy clean nozzle with tool-free disassembly
- Average flow rate per nozzle: 1.6 gph
- Operating pressures: 45 to 60 psi
- Multiple connection options: 1/2" male NPT,
- Stocking 1/4" taper fit, other mounting options available

ITEM #	DESCRIPTION	PRICE	100+
SENFOGGER	Fogger - 1.6 gph	$3.75	$0.24

Recommended installation:

PROPAGATION	
Four Way Adapter	
Min. Installation Height*	1.5 to 2.5 ft
Head Spacing	3 ft

COOLING AND HUMIDITY CONTROL	
Four Way Adapter	
Min. Installation Height*	3 to 6 ft
Head Spacing	3 to 10 ft
Lateral Spacing	5 to 15 ft

** Height above the plant. For benches up to 8 wide, install two lines of foggers centered over the bench for a more uniform application. Do not install fogger lines more than one from the edge of a bench. 140 mesh filtration required.*

** Mount Foggers as high as possible. Install drops perpendicular to the lateral line. Avoid spraying against roof or greenhouse structure. 140 mesh filtration required.*

Micro Sprinklers

Senninger Upright Micro Sprinklers are ideal for nurseries, orchards, vineyards, and vegetables. Inverted models are designed for overhead use in greenhouses, shade and hoop houses. Stocking 1/4" taper fit, other mounting options available.

Diameters:

UPRIGHT	psi 20	psi 30

Other spacing options may produce higher uniformities and lower scheduling co-effciencies. Check valve option on inverted models is available with different spacing recommendations. Consider friction loss through tubing when designing for optimum performance. 140 mesh filtration required.

All T Sprays

The Senninger T-Spray delivers a fine spray - ideal for delicate stock. It can be mounted upright or inverted and is also available in a high angle model for upright installations only.

Features

- 360º Spray nozzle.
- No moving parts for longer life
- High-angle upright T-stem provides larger diameter of coverage
- Color-coded stems for easy size identification

NEW J*	**NMD82**	Straight 3" Dripper Stake	$0.30	(4,000+) $0.27

* **New product!** * The Easyclean Labyrinth Stakes create back pressure to even the flow from multi-outlet drippers like other labyrinth stakes. The labyrinth has been moved from inside of the tube to within the body of the stake. The threaded labyrinth portion of the stake removes easily for cleaning and replaces with just a twist. The water exits the stake from multiple outlets along the top to ensure even distribution.

6-9 Volt DC Valve

DIG water matters

In-line Valve Features

- Internal bleed, does not have manual override for manual ON/OFF
- High flow with low pressure loss
- Rugged, reinforced self-cleaning diaphragm provides reliable operation even with contaminated water
- Flow control handle for water flow adjustment and manual shutoff
- FPT inlet x FPT outlet, 10 - 150 operating pressure

ITEM #	DESCRIPTION	FLOWRATE	PRICE
DG007	3/4"	0.1-28	$43.85

DC Irrigation Controller

Features

- Operate one valve or up to four stations with sensor and master valve (four station) without AC power hookup
- Four button keypad with an integrated LCD display
- Easy to read AM/PM clock
- Independent programming for each valve (four station)
- Can operate two valves simultaneously (four station)
- Digital icon indicates station in operation (four station)
- Automatic, semi-automatic and manual operation
- Operates with R710DC latching solenoids
- Irrigation suspension override (rain mode)
- Master valve wires included with the four station model
- Withstand harsh climatic conditions - rated IP68, the highest attainable code classifying the degree of protection against water intrusion (completely sealed and waterproof)

· Mount to valve or valve box wall · Powered by one 9-volt alkaline battery (not included) featuring low power consumption · Program stored for up to 20 seconds during battery change · Single station includes the solenoid

ITEM #	DESCRIPTION	PRICE

AC 4 Station Controller

- For controlling 24 VAC sprinkler and drip systems with up to 4 zones/stations
- Engineered for indoor or outdoor locations with exposure to weather
- Locking cabinet with two keys and swing panel display for easy access
- Capable of powering a pump start relay and one valve solenoid at the same time
- A, B and C program slots allow you to set up to three unique watering schedules
- Each program has up to four different start times for cycle and soak windows
- Manual mode allows you to run one zone, multiple zones, or all zones
- Rain delay feature allows you to skip watering zones during rain or freeze
- Compatible with 24 VAC valves

ITEM #	DESCRIPTION	PRICE
ORBAC4	AC 4 Station Controller	$56.30

DC Battery Valves and Controllers

DC Propagation Controllers

710AP Series Battery Operated Propagation Controller

The 710AP is a battery operated controller with a two-wire DC latching solenoid, designed for propagation, misting and irrigation cycles. The controller is fully waterproof and powered by two AA alkaline batteries that can last for up to three years. The 710AP includes a seven-button keypad, a large, easy-to-read LCD display, intuitive icon-based programming with five start times per day in weekly or cyclical mode, manual run, monthly budgeting, and "rain off" with restart of up to 99 days. The controller also features a propagation mode including cyclical frequencies from 1 minute to 59 minutes or from 1 to 12 hours, and durations in seconds for loop watering with selectable start and stop times.

ITEM #	DESCRIPTION	PRICE
DG71010P	Propagation Controller w/1" Valve	$121.85
DG71075P	Propagation Controller w/0.75" Valve	$113.70
DG710AP	Single Station Propagation Controller	$103.15

AC Single Station w/ Valve

Completely waterproof, the 700 series has a long list of features, including 4 start times per valve per day water budget, AM/PM clock, watering duration from 1 minute to 12 hours, 7 day programming options, simple 4 button design and easy to read screen. Sleek and compact, the 700 series are only 4 1/4" H x 5" L x 3 1/2" W. Can be used to temperatures from 38 to 130. Uses AA batteries.

Automatic Proportional Fertilizer Injector

Economical, flexible and easy-to-use, the 1-Pint (.47 L) Automatic Proportional Fertilizer Injector is ideal for feeding lawns, shrubs, trees, flowers, raised beds, vines and potted plants automatically without a pump, spreaders or hoses. It is constructed of heavy-walled, UV-resistant PVC without any moving parts for maintenance free operation. No pump or outside power source is required. Simply use the Add-It™ Automatic Proportional Fertilizer Injector to apply the optimum rate of preset fertilizer or additive to benefit your plants with no leftover residues or minerals.

Specifications

Operating pressure: 10 to 60 PSI (.7 to 4.2 BAR)
Minimum operating pressure: 10 PSI (.7 BAR)
Minimum flow rate: .5 GPM (2 L/M)
Sizes: 1 pint (.47 L)
Preset Ratio: 100:1, 100 parts water to 1-part additive
Inlet and outlet threads: FHT Inlet X MHT outlet or (FPT x MPT)
Mounting position: Vertical

ITEM #	DESCRIPTION	PRICE
DG5016	Automatic Proportional Fertilizer Injector	$25.00

Suction Strainer

This is a weighted strainer that accepts 1/4" or 3/8" clear hose. When dropped into a bucket the bottom is heavier and it will stand upright and not suck any debris off of the bottom of the bucket.

ITEM #	DESCRIPTION	PRICE
MICS84	1/4" & 3/8" Insert	$20.50

Dosatron Injector

Dosatron dosing pumps are water-powered, non-electric injectors that deliver precise, proportional dosing of liquids directly into water lines. Designed for ease of use and long-term reliability, each unit operates using water flow as its energy source—no electricity or programming needed. Available in a wide range of flow rates and dilution ratios. Built for tough environments, their modular design ensures simple maintenance, consistent accuracy, and long service life across a variety of applications.

ITEM #	DESCRIPTION	GPM	SIZE	PRICE
DOS100	D25F1VFII · 1:100 ratio · non adjustable	11 GPM	3/4"	$411.00

DOS40	D8RE2VFII	40 GPM	1.5"	$1,124.00

MixRite Injector 1:100

The MixRite 566AG injector is designed for a wide array of chemical and other additives. Accommodates water flow up to 11 GPM. MixRite Water Driven Injectors are water powered proportioning pumps that require no electricity and deliver accurate dispensing across varying water pressures and water flows. These units are ideally suited for in-line injection. MixRite injectors can provide in-line addition of fertilizer, insecticides and pesticides for agriculture and irrigation, etc. Includes suction tube with foot strainer and hose clamp and a replacement seal kit.

ITEM #	DESCRIPTION	PRICE
MIXRI1:00	MixRite Injector 1:00	$285.00

Dosatron Injector Maintenance Kit

The NEW Mini Maintenance Kits were designed to be an economical solution for the Dosatron user and grower who performs maintenance on a regular schedule.
The kits include wear parts, Dosa-Klean, and our new product – Dosa-Lube, and were created for the 11, 14, 20, 40, and 100 GPM injectors.

ITEM #	PRICE
DOS11KIT	$48.44
DOS14KIT	$48.44
DOS20KIT	$47.33

Plumbing for Dosatron

ITEM #	DESCRIPTION	PRICE
DOSBY10	Plumbing for Dosatron (11 & 14 gpm)	$35.00

DosaKlean

Use DosaKlean on a regular basis to cleanse your injector and remove rust, mineral deposits and calcifications. DosaKlean is easy to use – simply soak your injector parts and eliminate the need for heavy scrubbing. Sold by the packet, one packet will make 1 gallon of soaking solution.

ITEM #	DESCRIPTION	PRICE
DOSKLE	DosaKlean	$11.55

Dramm HD Hose Reel

The Dramm Heavy-Duty Hose Reel is the perfect match for Dramm Garden Hose. A convex design prevents the hose from pinching against the side wall. A spring-pin lock keeps the reel from unwinding when not in use. An adjustable break can prevent freewheeling of the reel. A stainless steel axle and PTFE bearings make winding easy. This Heavy-Duty Hose Reel can hold up to 175' of 5/8" or 150' of 3/4" Dramm Hose and includes a 10' x 3/4" leader hose for easy connection to the tap. Includes a mounting bracket with different mounting options.

ITEM #	DESCRIPTION	PRICE
DRAHOSRE	HD Hose Reel	$309.00

Orchard Tubing

This orchard tubing is a great option for a lateral distribution & supply line for on-line drippers, weighted drip tubes, micro-sprinklers and can be used as a headline for small drip tape systems.

ITEM	DESCRIPTION	PRICE
SUP5C	Battery Spray Caddie	$377.00

Mercury Dualpump Sprayer

Coming in 0.5L and 1.0L tanks, Mercury sprayers are the smallest sprayers in the Garden Pro series. While small in size, Mercury sprayers are designed to get the job done quickly and efficiently. They have a simple design and are easy to use.

Mercury sprayers include a unique double action spray head for a constant, fine spray with minimal effort! In addition, the 360° feature means that you can spray at any angle... Even upside down! The sprayers are ideal for tending indoor plants, spraying, foliar fertilizing, applying leaf shi...

- 360° Spraying
- Double Action Trigger is easy on the hands
- Heavy Duty Base Ring for stabilization and protection · Visible Fluid Strip to monitor fluid level

ITEM #	DESCRIPTION	PRICE
KWAMER.5	.13 GAL (.5 Liter) Mercury Dualpump Sprayer	$16.25
KWAMER1	.25 GAL (1 Liter) Mercury Dualpump Sprayer	$17.25

Venus Super 360° Sprayers

Venus Super 360° sprayers come in 1.0L, 1.5L, and 2.0L capacities. They're ideal for home, garden, and greenhouse use. The 360° capability means that you can spray at any angle...Even upside-down! Venus sprayers come with a directional and adjustable nozzle tip, a base rim for stability and protection, and visibility strip to check fluid level. There is also a built-in safety valve that operates in pressure exceeding 3 bar.

- 360° Spray Action
- Adjustable Spray Nozzle
- Comfortable Handle
- Pressure Control Safety Valve · Heavy Duty Base Ring for stabilization and protection · Visible Fluid Strip to monitor fluid level

KWAVEN	.25 GAL (1 Liter) Venus Handheld Sprayer	$32.50
KWAVEN02	.50 GAL (2 Liter)Venus Handheld Sprayer	$30.00

Battery Sprayer 4 gal

The Back Pack Sprayer is a rechargeable, battery-powered sprayer that fits comfortably on your back. Operating at a maximum pressure of 145 psi, the electric sprayer offers an adjustable pressure knob for flexibility in spraying.

Using the high-pressure setting, sprayer atomizes spray solutions better than other backpack sprayers, ensuring excellent coverage.

The battery-operated pump ensures even flow rates, perfect for even application of plant growth regulators, insecticides, fungicides, herbicides and other greenhouse chemicals. It can run for up to 1 hour on a full charge and recharges in 4 hours. The 4 gallon tank capacity is just the right size. Perfect for spot treatments or concentrated applications, but small enough to still be comfortable to wear.

ITEM	PRICE
GGA100	$649.00

Single Head Model

Double Head Model

Fogit Greenhouse Sprayer

The Fogit Greenhouse Sprayer applies chemicals at a low-volume rate. This means that the same amount of active chemical is applied to a given area, but the chemical is diluted into reduced amounts of water. Because low-volume is very efficient, many users have found that lower volumes of chemicals can be used with the same results.

The Fogit Greenhouse Sprayer will require a minimum of 2 liters of water and the chemical to treat 5,000 sq. ft. If less than 5,000 sq. ft. is treated, a minimum of 2 liters of water is still used.

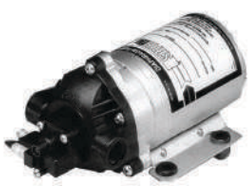

The Fogit Greenhouse Sprayer will do a greenhouse 75 feet in length. If a greater distance is needed, it will need circulating fans in the greenhouse or a dual head model.

Low-volume application is only possible when extremely fine particles are produced. The micronized chemicals stay suspended for up to 6 hours and are distributed by horizontal airflow fans and natural air currents.

Container volume is approximately 4 liters and it takes 3-4 CFM of air to operate the fogger.

9 CFM for the dual head.

ITEM	DESCRIPTION	PRICE
FOGGRS1	Fogit Greenhouse Sprayer (Single Head)	$480.00

Greenhouse Supplies

Pre-Wound Tomato Hook

29'+9' Freefall Twine; The double tomato hook with twine is used in greenhouse tomato production. It makes trellising easier, in addition to providing strong support. This hook type is very fast and easy to install, thus saving considerable time. It has two rolls of twine, one to use immediately and the other to drop as needed. Lead time is 7 days.

ITEM #	PRICE	336+
PTH	$0.70	$0.63

Roller Hook

The process of plant's lowering is one of the most time-consuming tasks for workers. Not only it is difficult to control the lowering height, but also the plants can be damaged. Designed to ensure a full control of the plant's lowering at minimum cost, the RollerHook is composed of a re-usable metal frame and a disposable spool. RollerHook is the perfect solution for an easy and efficient trellising of greenhouse tomato plants.

TRHS	Roller Hook Spool w/ 82' of twine	$0.39	$0.35

Ken-Bar Heat Mats

Made by Ken-Bar, these heat mats are low cost, durable, flexible, and performance-wise the system is better than conventional sources of electrical bottom heat. Ken-Bar uses Thin Film Technology, which creates the most electrically efficient heat element on the market today. Heat is generated by electric current flowing through the black bars which are resistive/conductive material. Spaced close together and zigzagged, these bars emit a virtually continuous heat pattern. Studies show an even bottom temperature gets better germination and a better developed plant.

ITEM #	DESCRIPTION	PRICE
AT10	11" Wide by 10' Long Heat Mat	$87.70

Digital Hose End Timer

The B09D 3/4" Digital Hose End Timer offers simplified programming and improved monitoring of battery power with less current, resulting in longer battery life and more reliable operation. With higher flow rates at lower inlet pressures and a range of programming features, the B09D delivers a reliable and costeffective solution for residential use. The timer has four start times per day with durations from 1 minute to 12 hours 59 minutes in an operating flow range of .5 to 6.3 gallons per minute, allowing use in a wide range of applications including drip irrigation or micro sprinkler systems connected to a garden hose or faucet/spigot. It uses one 9-volt alkaline battery that can last for over a year.

ITEM #	DESCRIPTION	PRICE
DG9001D	Battery Op Garden Hose Controller	$41.50

Dramm Hozon Syphon Mixer

The syphonject draws a concentrated solution from a bucket through a flexible suction tube. The solution is then diluted as it enters the water stream at an approximate ratio of 20 parts water to one part concentrated solution. Requirements: A full flow nozzle 3-5 GPM., Minimum water pressure at faucet 35 PSI, max hose length of 50', any restrictions in the line downstream will cause backpressure and it will not work.

Black Knitted Shade Cloth

Black knitted shade cloth is made from 100% UV stabilized polyethylene. Its unique lock stitch construction allows customers the ability to cut the fabric with scissors without further unraveling. Knitted shade is available in a variety of colors and stripes. Its lightweight and durability make it a superior choice for all types of shade applications.

Custom Woven Shade Cloth

Made from 100% polypropylene mono-filament strands. UV stabilized. The sewing team can customize panels to any size. They use #4 brass grommets and 2.75" reinforcement tape. The taped edges are double stitched for extra holding power. Available in shade percentage: 30%, 74%, 55%, 63%, 73%, & 80%. Standard seams are 6', 10' & 12' and any can be seamed and/or cut to make your custom width. Call 717.532.5918 for a quote. Please specify length, width, shade percentage, and grommet spacing. Allow several weeks lead time.

BS2401	24" Bamboo Stakes	1000/bundle	$80.69

Insect Sticky Traps

Insect Sticky Traps are doublesided for maximum efficiency. These 3-inch by 5-inch traps have both a yellow and blue side. An easy-peel film maintains stickiness while a pre-punched hole makes them easy to hang. This pack contains 48 traps. Different colors attract different species of pests. The yellow and blue coloration traps is the ideal color combination for trapping the most species. The yellow side of the trap attracts whiteflies, fungus gnats, shore flies, winged aphids, leaf miners, scale, and many other species. The blue side entices flying adult thrips. Insect Sticky Traps are an essential addition to any integrated pest management (IPM) program. By monitoring the amount of insect pests attracted to the Pestrap™ Cards, you can to decide whether it's worth spraying or not. They are weather-resistant and non-toxic, allowing you to hang them nearly anywhere.

ITEM #	DESCRIPTION	SIZE	COUNT	PRICE
PT2X48	Blue/Yellow Sticky Traps	3" x 5"	48/pk	$32.72
PT24	Yellow Sticky Traps	3" x 5"	50 qty/cs	$32.72

Never Dig

Have you ever spent the better part of a day busting up concrete and digging just to replace a leaking water hydrant? A solution to this problem – the 'Never Dig' Outdoor Water Hydrant Sleeve kit. This kit can be used to replace an existing hydrant or when installing a new one. After installing the 'Never Dig' Hydrant Sleeve, you will not need to cut through concrete or dig up an area just to replace your hydrant. Changing your hydrant will be an easy process, the sleeve protects the hydrant and allows you to simply pull out the old, faulty hydrant before reattaching a new one. It's that simple.

ITEM #	DESCRIPTION	PRICE
FMNEVDIG	Never Dig Hydrant Sleeve Kit	$69.50
FMBRA	Never Dig SS Hydrant Bracket	$21.50
FMRUBCAP	Never Dig Rubber Cap for 1.25" Pipe	$20.68

Frost Free Hydrant

The Merrill Any Flow® Yard Hydrant gives year-round water service to customers in all weather conditions. The unique design of the Any Flow's plunger assembly increases the plunger's life expectancy by 200% over others in the industry. The use of a pivot connector and nuts enables easy adjustments for years as opposed to set screws that quickly rust into place. Full lever control allows the Any Flow® to run at a trickle to full flow and everywhere in between by just moving the handle. Designed with swivel parts, the Any Flow® can have its internal parts removed and replaced all without a need to dig up the hydrant. The use of a drain hole ensures that water drains from the standpipe allowing the Any Flow to be your year-round water solution in all climates.

ITEM #	DESCRIPTION	PRICE
HYD073	Any Flow, 3/4" Frost Free Hydrant	$136.53
HYD103	Any Flow, 1" Frost Free Hydrant	$170.00
